

# ZCY45

limit switch lever ZCY - thermoplastic roller  
lever variable length

## Main

|                            |                                                            |
|----------------------------|------------------------------------------------------------|
| Range of product           | OsiSense XC                                                |
| Series name                | Standard format                                            |
| Product or component type  | Limit switch lever                                         |
| Device short name          | ZCY                                                        |
| Product compatibility      | XCKD<br>XCKP<br>XCKT<br>XCMD                               |
| Associated head            | ZCE01<br>ZCE05                                             |
| Movement of operating head | Rotary                                                     |
| Type of operator           | Roller lever spring return thermoplastic (variable length) |
| Tracks                     | No track                                                   |
| Type of approach           | Lateral approach                                           |

## Complementary

|                  |            |
|------------------|------------|
| Switch actuation | By 30° cam |
| Positive opening | With       |

## Environment

|                                       |                      |
|---------------------------------------|----------------------|
| Ambient air temperature for operation | -25...70 °C          |
| Ambient air temperature for storage   | -40...70 °C          |
| Environmental characteristic          | Standard environment |
| RoHS EUR status                       | Compliant            |
| RoHS EUR conformity date              | 0851                 |

The information provided in this documentation contains general descriptions and/or technical characteristics of the products of the Schneider Electric group. It is not intended to be used for determining suitability or reliability of these products for specific user applications. It is the duty of any such user or integrator to perform the appropriate and complete risk analysis, evaluation and testing of the products with respect to the relevant specific application or use thereof.
